## PRESIDENT WILSON CALLS SPECIAL SESSION OF CONGRESS FOR MAY 19

### CONGRESS IS CALLED TO CONVENE FOR PURPOSE OF PASSING ON TREATY

Washington, May 7.—A call for congress to meet in special session May 19, was issued by President Wilson today.

Receipt of the President's cable issuing the call was announced at the White House today by Secretary Tumulty.

The date set for reconvening congress probably will be that President Wilson will not be here at the opening session.

The proclamation of the president for the special session announced by Secretary Tumulty, was:

"Whereas public interest requires that the congress of the United States should be convened in extra session at 12 o'clock noon, on the nineteenth day of May, 1919, to receive such communications as may be made by the executive.

"Now, therefore, I Woodrow Wilson, president of the United States of America, do hereby proclaim and declare that an extraordinary occasion requires the congress of the United States to convene in extra session at the capital in the District of Columbia on the nineteenth day of May, 1919, at 12 o'clock noon, of which all persons who shall be at that time entitled to act as members thereof are hereby required to take notice.

"Given under my hand and seal of the United States of America, the sev-

enth day of May, in the year of Our Lord, onethousand nine hundred and nineteen and of the Independence of the United States, the one hundred and forty-third.

(Signed) "WOODROW WILSON." It is understood that the desires congress to begin work on appropriation bills that they may be passed before the beginning of the new fiscal year, July 1.

The senate with the text of the peace treaty before it, also will be able to begin discussion of it and thereby hasten action on it after the president has returned and delivered his treaty message.

This would indicate it is believed, that the President probably will issue a statement in Paris on the treaty that his voice may be heard in the discussion here.

At the White House, it was stated that the President's advisers felt that congress should start work immediately on necessary supply bills. Secretary Glass, it was said, was especially anxious that congress should hasten preparation for providing funds, particularly for war risk insurance.

The need for appropriations for the railroads and other activities—as well as running expenses for the department—made action on the urgent deficiency bill imperative, it was said.

### U. S. ARMY WILL LEAVE FRANCE BY AUGUST

Washington, May 7.—Practically the entire American army except the army of occupation probably will have left France in August, Secretary of War Baker stated today.

Ship movements have been so rapid he said, that all but a small working force which it may be necessary to maintain in France should have sailed for the United States by that time.

Complete separation of the army of occupation from that part of the army in France will be soon effected.

Baker said there was an American liquidation committee now working to dispose of hundreds of millions of dollars worth of American equipment, buildings and supplies.

The secretary, apparently in good health after his trip, reviewed many of his experiences in France. In answer to a question regarding purchase of the Wright Aviation field at Dayton, Ohio Baker said he was not yet able to answer "American questions."

Baker was optimistic regarding questions in the A. E. F.

The secretary said he went to France principally to look over the work of the liquidation commission. Permanent American improvements such as docks and railroad additions are to be taken over by France. The commission also is turning over to France various buildings, warehouses, hospitals, barracks and schools which have been used by the army.

Several hundred millions of dollars worth of property, such as machine tools, and locomotives and cars, will be sold in Europe, probably, mostly to the French government, he said.

Lieut. Gen. Liggett, Baker said, has relieved Major General Dickman as commander of the army of occupation.

A complete line of communication to the army of occupation is to be maintained in the future, from Antwerp and Rotterdam to the Rhine region, Baker explained. This will mean complete separation of the army of occupation from the A. E. F. in France. As rapidly as possible, Baker said, troops and officers in the advance section of France are being withdrawn westward into the intermediate section of the service of supply and gradually will reach the west coast, the port region. Baker believes the army of occupation is the best equipped army the United States has ever had.

Removal of the army of occupation, he said, after treaty negotiations are completed, will be only a question of ships.

The millionth man to embark from France for home, Baker said, should be aboard ship this week. As for the men in the army of occupation only enlisted for duration of the war, they are to be relieved by replacements, he said. The first one thousand and replacements, he announced, probably would leave New York today.

Sentiment in the A. E. F. is decidedly against parades on the return, Baker said, as the men are most anxious to get home.

Baker reviewed the educational work being carried on at Beaune, France, where eleven kinds of schools are maintained with 9,000 students.

### FOUR HUNDRED ARE KILLED IN MOSCOW

London, May 7.—Advices from Russia state that 400 persons were killed in Moscow last week in food riots. Red Guard attacked and killed a mob which was shouting "down with Lenin and Trotsky; down with hunger and the republic; give us food."

supporting, was before the committee and rejected because it was felt it did not meet the emergency."

Borrowing requires credit, he said, which many sub-divisions, particularly rural school districts, do no longer possess.

Parrett pointed out that in the case of highway levies, and emergencies, such as arising out of the 1913 flood, school houses destroyed by fire, sewage disposal orders of the state health department the Smith 1 per cent law repeatedly has been set aside with approval of Governor Cox.

Protection of home owners for which the governor pleaded in his veto message Parrett declared in effect meant more particularly protection to landlords.

### ITALIAN DELEGATES ARE BACK IN PARIS

Paris, May 7.—Premier Orlando and Foreign Minister Sonnino, the Italian delegates, arrived here from Rome shortly after 10 o'clock this morning.

Orlando immediately went into conference with the other members of the "Big Four."

GOES HOME IN BLANKET.

Akron, Ohio, May 7.—Lewis King, living in the east end went home in the patrol wagon wrapped in a blanket last night. Two negroes held him up, and took his clothes. There was no barrel handy so a policeman borrowed a blanket and ordered the patrol wagon for him.

DESTROYER GOES AGROUND.

St. Johns, N. F., May 7.—Another American destroyer, the 168, ran aground at Trepassy bay while trying to assist the destroyer Foote, which ran ashore during the night. The 168 is only slightly aground. The Foote has a list of ten degrees.

It contains the best judgment of the committee which has had the taxation and financial relief problem under consideration since the beginning of the session," he said. "The so-called substitute measure, authorizing further borrowing of money, which I understand the governor is

### Treaty Prepared by Allies Given Germans To Sign

Versailles, May 7.—The Germans received the peace treaty at 3:17 this afternoon.

Presentation of the treaty followed a brief speech by Premier Clemenceau, chairman of the peace conference, in which he welcomed the delegates.

The manuscript of the treaty, translated in German, was handed to the enemy representatives by Secretary Dutasta.

"After receiving the treaty, the Germans presented a written reply. It was read in German and interpreted in English and French, two sentences at a time.

"The reply admitted the wrong to Belgium and declared Germany's willingness to make reparation. It stated that so far as the conduct of the war was concerned Germany was 'as humane as the allies.

"The allies killed many Germans after the armistice was signed, it was charged in the reply. The measure of guilt can only be determined through an imperial inquiry, said the Germans, who added that their archives are available.

"In this conference, according to the statement, the Germans are alone but not lacking in allies. The allies themselves brought the Germans allies—the principles of peace. The allies and their associates it was pointed out, agreed to a peace of justice without violence. In November, 1918, Secretary Lansing declared the allies agreed to a peace on the basis of President Wilson's fourteen points, as the Germans had asked."

The German reply argues that the war was not in vain if a real league of nations is formed in which all nations will have an equal chance. The Germans declared their willingness to make reparation for the devastation wrought in France and Belgium, but said they would not consent to the use of German war prisoners in the work of restoration.

The meeting adjourned at 3:58 p. m.

Versailles, May 7.—The Germans receive the terms of the peace treaty this afternoon, the fourth anniversary of the sinking of the Lusitania.

Four years ago Germany challenged civilization by torpedoing the Cunard liner without warning, killing 1,154 civilians. Today she learns the price she must pay in finances, territory and loss of national prestige. Her penalty in blood already has been exacted.

Selection of Versailles as the setting for this world drama is significant in that nearly half a century ago, the modern German empire was born here at the conclusion of the Franco-Prussian war.

Germany's war of world domination began and ended in Versailles.

The ceremony of presenting the treaty to the Germans, takes place in the Trianon Palace Hotel.

The dining saloon in which the delegates gather is entirely glass on three sides. Green covered tables in the form of a hollow square, stand in the middle of the room, with smaller and red topped tables arranged along the walls for the secretaries.

Premier Clemenceau sits at the head of main table, facing the Germans at the foot. President Wilson and the other American Delegates, Secretary Lansing, Col. House, Henry White and Gen. Bliss—sit at his right. At his left are Premier Lloyd George and the other Representatives. Next to isolation and the finale.

the Americans are the French delegates with Marshal Foch in their midst. The other delegations include the plenipotentiaries of Italy, Belgium, Greece, Japan, Portugal, Serbia, Rumania and Poland.

They also include: Czechoslovakia, Jugo-Slavia, China, Siam, Panama, Cuba, Guatemala, Nicaragua, Haiti, Honduras and Brazil. Forty newspaper correspondents including five Germans have seats at the right side of the room.

The speech by Clemenceau, President of the peace conference, possibly will be the only one and will be brief. At its conclusion he will hand the treaty to Secretary Dutasta, of the conference who will traverse the space within the rectangle and place it in the hands of Foreign Minister Brockdorff-Rantzau, chief of the enemy delegation.

The treaty carries a short preamble, merely stating that the war has been terminated on the ensuing terms. The first section is the league of nations covenant. The remainder is divided into sections. The frontiers of Germany within Europe follow the covenant. Other sections comprise the frontiers outside Germany. Political arrangements in Europe; military, naval and air terms; economic and financial reparations; the international regime of ports, waterways, and railways; international labor legislation and the finale.

### DEATH TOLL TO COLUMBUS FIRE MOUNTS TO NINE

Columbus, May 7.—The death Tuesday night of Mrs. Ada Belle Joyce, 36 years old, brought the number of dead in Monday night's apartment building fire to nine. Mrs. Joyce is the first of the injured in hospitals to die, although Charles Speakman, whose wife leaped to her death, cannot live, physicians say.

Twelve other persons in hospitals are in serious condition.

"Absolute negligence" was responsible for the fire and its toll, according to State Fire Marshal T. Alfred Fleming.

Swinging gas jets, from which the flames started; inadequate fire escapes built too close to the walls and too near windows, and converging hallways leading to a single stairway alongside an elevator shaft that provided a draft for flames, were factors he points out as causing the fire to be so disastrous.

The correct list of dead follows: Mrs. Ada Belle Joyce, aged 36, Mrs. Charles C. Speakman, 45, Mr. and Mrs. George Reifsnider, Mrs. Carl Steigwald, aged 24, Louis Evans, aged 75, Mrs. Speakman's father.

Carline Whittlesley aged 27, elevator operator.

Mrs. Elsie Nettleton, aged 30, Frank Frederick, aged 35.

Rockaway Beach, N. Y., May 7.—The start of the American Seaplanes to Halifax preliminary to their trans-Atlantic "hop" is now tentatively set for tomorrow. Weather conditions were adverse today.

### SOME TOWNSHIPS FALL COMPLETELY DOWN ON THE JOB

Before Saturday midnight Greene county must subscribe \$206,000 to the Victory loan to put the county quota over.

The total subscriptions to date amount to \$379,450. While workers throughout the county have promised to make a determined effort during the closing days of the campaign, the subscriptions reported Tuesday were far short of the daily quota necessary to win.

The table printed below showing the quotas and bond sales in the various townships of the county indicates that several townships have absolutely fallen down on the job. Caesar Creek township, with a quota of \$12,000, has reported only \$600, and Ross with a quota of \$20,000 has reported only \$500. It is possible that workers in these townships have made more sales and have failed to report them. If that is not the case, those townships have cause to be ashamed of their showing and the patriotic citizens of those localities should wake up.

The table shows a wide difference in the size of the quotas assigned various townships. This is explained by the fact that some townships have banks and others have not. Those with banks are assigned large quotas and those which have not are given very small quotas in comparison.

The table follows: Quota Sales  
Bath ..... \$ 57,750 \$ 30,550  
Caesar Creek ..... 12,000 600  
Beaver Creek ..... 25,000 8,300  
Cedarville ..... 71,900 57,350  
Jefferson ..... 39,900 14,500  
Miami ..... 49,950 58,500  
New Jasper ..... 12,000 8,450  
Ross ..... 20,000 500  
Silver Creek ..... 81,200 20,650  
Spring Valley ..... 28,600 7,650

### WORLD WAR VETERANS TO FORM PERMANENT COUNTY ORGANIZATION

Ex-Soldiers, sailors and marines, are requested to be present at the meeting to be held in the assembly room of the Xenia Business Men's Association Friday evening at which time an effort will be made to effect a permanent organization of the World War Veterans Association here.

The Business Men's Association has kindly offered its hall for the purpose and those back of the movement hope to have the big room crowded by service men who wish to align themselves with the movement. Although a skeleton organization was effected several weeks ago, it was the purpose to simply get the movement started in this matter, and it is hoped that a permanent organization of local Post No. 13, which is the number assigned to Greene county, can be secured at the coming meeting.

Everyone in the county who has seen service is invited and expected to attend the first post meeting, and the meaning, origin and motive of the association will be explained. The Greene County Post will simply be a branch of the National Association that is being organized all over the country and in purpose will not differ far from that of the G. A. R.

The Association does not stop at any one branch of the service, taking in soldiers, sailors or marines, nor does it distinguish between color, race or religion. It is an organization for the promotion of the best interest of the ex-service man and with a charitable and benevolent spirit of brotherhood.

The meeting will be an important one in the history of Post No. 13, and it is hoped that every ex-service man will consider it his duty to be present.

### CONSIDER FUTURE OF SEMINARY AT MANAGERS MEETING

Consideration of the future of Xenia Theological Seminary was the chief feature before the Board of Managers of the seminary at its Tuesday evening session.

Prof. John E. Bradford, of Miami University, acted as spokesman of a committee which was appointed to consider the matter, at the Conference on the future of the seminary which was held in Dayton last January. Other members of this committee are: Rev. John G. King, of Columbus, and the Rev. W. T. Mabon, of Dayton.

Prof. King presented the opinion of the committee in an address in which he gave a view of the situation and urged a fair, open minded consideration of the whole matter, so that when a final decision is reached, whether that be for removal of the seminary or against it, it may be felt by all that the decision was not hurried or forced by any special interest. No specific plan was offered.

A committee consisting of Dr. James P. Cowan, of Indianapolis, chairman, and the Reverend Messrs. J. W. McClenahan and W. O. Chisholm was appointed to consider the address and bring in a report on it to the managers at 1:00 p. m. Wednesday.

Judge J. Carl Marshall, Judge C. H. Kyle, Mr. R. E. Bryson and Mr. T. Dales Kyle were elected members of the Board of Trustees. Reports of committees and routine business occupied most of the morning session Wednesday.

A letter from the Xenia Ministerial Association was read and the board expressed high appreciation of its spirit. It expressed the interest of the Christian people of Xenia and the country near by in the institution, and acknowledged handsomely a debt of gratitude for its constant helpfulness in all the higher things of life.

Graduation exercises of the seminary will be held Wednesday evening at 7:30 at the Second United Presbyterian church. The annual commencement address will be delivered by the Rev. W. Charles Wallace, D. D., president of Westminster College. Dr. Joseph Kyle, president of the seminary, will present the diplomas and confer the degrees.

The Alumni Association holds its annual meeting at 4 o'clock Wednesday afternoon, and its annual banquet at 5:30 in the dining room of the Second church.

The Misses Kate and Jennie Adair, of Long Beach, Cal., are here for a visit with their brother and sister-in-law, Mr. and Mrs. R. D. Adair.

### WHEN TO GATHER ROOTS AND HERBS

For medicinal purposes, roots and herbs should be gathered when their medicinal properties are at their best. For instance, roots of annual plants should be dug just before their flowering season, and roots of biennial or perennial plants after the tops have dried. All these things are taken into consideration in gathering the roots and herbs, many tons of which are used annually in preparing that most successful of all remedies for woman's ills, Lydia E. Pinkham's Vegetable Compound. adv

"Spoiling the ship for a penny's worth of Tar"

You know the old saying—Don't let this happen to our American Ship of State.

Our Country has never stood higher in the eyes of the world than it does today. A place second to none among the Nations has come to us—a place in the sun calling upon us Americans to be teachers and exponents instead of followers.

We fought to make the World a decent place to live in, now we must PAY to KEEP the World a decent place to live in—the eyes of all people are upon us, we must put this Victory Loan over in double quick time.

Remember, 4 3-4 per cent—a quarter more this time, and with America's whole resources behind you. Do it now. Do your bit towards tearing our American ship of state towards the greatest smooth sailing, prosperity the world has known—and finish this war in a businesslike way.

## Pimples and Skin Eruptions Danger Signs of Bad Blood

It May Mean Eczema, Scrofula—The First Sign of Inherited Blood Disease.

Pimples, scaly itching skin, rashes, burning sensations and Scrofula denote with unfailing certainty a debilitated, weakened and impure state of the blood. The trouble may have been in your blood from birth, but no matter how you were infected, you must treat it through the blood. It is a blood disease. You must use S. S. S., the standard blood tonic for 50 years, if you expect certain relief. For purifying the system, nothing

is equal to it. The action of S. S. S. is to cleanse the blood. It soaks through the system direct to the seat of the trouble—acting as an antidote to neutralize the blood poisons. It revitalizes the red blood corpuscles, increases the flow so that the blood can properly perform its physical work. The dull sluggish feeling leaves you—the complexion clears up. Even long standing cases respond promptly. But you must take S. S. S. Drugs and substitutes won't do. Get S. S. S. from your druggist. ## Vinol will Stop a Cough and Break Up a Cold

A constitutional remedy that removes the cause by building up the system. These elements contained in Vinol—Beef and Cod Liver Peptones, Iron, Manganese and Glycerophosphates—soon create an energy that throws off the cold and prevents its recurrence. It has given ninety per cent satisfaction for sixteen years. **HERE IS PROOF:**

**Dunn, N.C.**  
"I suffered with a chronic cold for four months, coughed day and night. Had to keep on working when I was not able to. I saw Vinol advertised and tried it, and I want to tell you it just cured that cold in a short time. It made me eat and sleep well, better every way."—J. C. Bagley, Dunn, N.C.  
For all run-down, nervous, anemic conditions, weak women, overworked men, feeble old people and delicate children, there is no remedy like Vinol.

**Lagrange, N.C.**  
"For years I suffered with a chronic cough, so I could not sleep nights and continued to lose flesh. My druggist asked me to try Vinol. It cured my cough, I can sleep nights and have gained twelve pounds. Vinol is the best tonic and tissue builder I have ever taken."—W. D. REN, Lagrange, N.C.

## INTERESTING MEETING OF MOTHERS' CIRCLE

A most interesting program was given at the meeting of the Orient Hill Mothers Circle Tuesday evening. Those having part were little Miss Winifred Cross, who sang sweetly, being accompanied by her mother, at the piano. Mrs. Floyd Allen accompanied at the piano by Miss Margaret Fletcher, very delightfully entertained with singing in her usual charming manner. Mrs. Geyer, the speaker for the afternoon, talked upon the "Rewards and Punishments of Children," which was very instructive to parents and teachers. Supt. Patterson was called upon and responded with well chosen remarks. Mrs. W. C. Hutchinson, who had not been able to be with us for quite a while was present, and it was with much appreciation her hearers listened as she talked in her own pleasing manner for a few minutes. Those present were favored with the best meeting of the entire year, which is also the last for this school year.

For Colds, Catarrh or Influenza.

Do you feel weak and unequal to the work ahead of you? Do you still cough a little, or does your nose bother you? Are you pale? Is your blood thin and watery? Better put your body into shape. Build strong!  
An old, reliable blood-maker and herbal tonic made from wild roots and herbs, is Dr. Pierce's Golden Medical Discovery. This "nature remedy" comes in tablet or liquid form. It will build up your body, cure your cold, and protect you from disease germs which lurk everywhere. One of the active ingredients of this temperance alternative and tonic is wild cherry bark with stillingia, which is so good for the lungs and for coughs; also Oregon grape root, blood root, stone root, Queen's root, all skillfully combined in the Medical Discovery. These roots have a direct action on the stomach, improving digestion and assimilation. These herbal extracts in the "Discovery" aid in blood-making, and are best for scrofula. By improving the blood they aid in throwing off an attack of influenza.

Catarrh should be treated, first, as a blood disease, with this alternative. Then in addition, the nose should be washed daily with Dr. Sage's Catarrh Remedy. Send 10c for trial pkg. of Medical Discovery Tablets or Catarrh Tablets to Dr. Pierce, Invalids' Hotel, Buffalo, N. Y.

Peptiron happily meets the requirements of those worn out by worry and excitement over the war, and the prostration following the grip, influenza, etc. It combines the great oxidizers and vitalizers of the blood, iron and manganese, with nux, pepsin and other nerve tonics and digestives. Peptiron is in the form of chocolate-coated pills, pleasant to take, and promptly effective.

**AUTOISTS HOLD MEETING.**

Columbus, May 7.—Four hundred delegates, representing auto clubs from all sections of the state, were expected to attend the annual convention of the Ohio State Automobile Association, which was to open here today and continue through tomorrow.

Gov. Cox, Lieutenant Colonel Ralph D. Cole, Secretary of State, Harvey C. Smith and Mayor Karl are scheduled to speak at the banquet this evening. The new Poutis highway law the Lloyd speed limit law and the proposed graduation of automobile license fees will be discussed.

**ELEVENTH ANNUAL REUNION.**

Columbus, May 8.—The 11th annual reunion of the Lawrence County society will be held at Memorial Hall this evening.

A banquet, pictures and music will feature the entertainment. Judge E. E. Corn, Ironton, was to be one of the speakers.

**Somewhat Malapropos.**

A good story is told of a political meeting held in a well-known town in the north of Ireland. The mayor and aldermen had consented to attend in their robes, and, as it happened, they were late in arriving, and to keep things going the audience started singing "Hold the Fort, for I Am Coming," but it was distinctly unfortunate that just as the mayor entered at the head of the imposing civic procession, the congregation happened to be singing the lines: "The mighty host advancing, Satan leading on!"

### THE FOLLY OF ANXIETY.

Viewing with alarm is an extremely unprofitable occupation. Fear is probably the only wholly destructive emotion in the whole category.

There are two good reasons why alarm is useless.

First, the thing feared may not come to pass. In that case the fear was useless and you have been miserable for nothing.

Second, it may come to pass. By fearing, and getting others to fear, you may finally succeed in actually getting your fears to take form in reality. In that case, you have weakened yourself for the bearing of the trouble by your previous condition of fear. You should have been bracing yourself by figuring out how you can get the better of the situation if the worst does come.

In other words, you should not be planning evil and shrinking from it, but planning the conquering of evil.

It is no good lingering and trembling at the brink of the busily rushing stream. Study your chances calmly and quietly, then jump right in. If you drown, why you drown, and that is all. The previous trembling will not help you. If you get through to the other side, you need all your strength to do it with, and to face what comes when you get there. The way to get things done is to get things done.

Pointing with pride is not much more useful than viewing with alarm. Why waste time looking backward—except as the satisfaction of accomplishment gives assurance of future performance?

Look ahead with the steadiness of faith, the joyousness of hope. Then your good, old dogged plodding on from day to day becomes illumined with a radiance which lights up your life.

### DRINK MUCH MORE WATER FOR BODILY HEALTH.

We know of cases where drinking water or milk in large quantities has seemed to be a health preservative, when failure to do so resulted in loss of vitality almost to the point of illness. Perhaps this is indicative of the fact that we do not drink enough fluid to meet the requirements of our bodies. Anyway the following article from the pen of an able physician strikes us as possibly a good suggestion to help to good health, and we guarantee that following the advice will do no one any harm, so we give it.

"Few persons seem to know that many of our daily ailments, and perhaps some of the more serious chronic troubles, are due to the fact that the body does not receive enough water to carry out its functions properly and that such ailments can in many cases be cured or avoided by simply drinking more freely. Water is the vehicle which nature relies upon to convey the nutrition from the digestive organs to the rest of the body, to carry the blood corpuscles to and from the lungs for oxidation and thence to the rest of the body, and finally to dissolve and carry away the waste products which cause trouble.

"When the body has not been given sufficient of this important conveyor and scavenger the organs are physically and chemically unable properly and freely to carry out their functions, the actions become sluggish, materials which should be conveyed are deposited or become clogged.

"Some wise doctors resort to the psychological effect of some strongly tasting drug taken, however, with lots of water. The curative effect is generally attributed to the ingredients in these drinks, when it is in most cases merely due to the water in them which nature needed so badly to cleanse the body. The writer has noticed that almost invariably those persons who are chronically ailing with minor troubles are water-shy, while those who are robust and generally feel well drink very freely.

"The harm of drinking at meals is due to persons washing down undigested food with the liquid does good. Those who will drink only after the food has been thoroughly chewed and swallowed can drink all the liquids they like at meals; the more the better. For many years the writer has taken from three to seven glasses or cups per meal and has perfect digestion.

"In the writer's opinion, the most prevalent of modern diseases is what might be called water-shyness. Many persons claim that one is unclean if one does not bathe frequently, yet these same persons often do not know or recognize how unclean they are in their own bodies, due to the sparing use internally of nature's important cleansing material, water. Eight to sixteen cups or glasses per day is said to be the normal requirement of the body."

### MORNING BATH IS VICTIM OF H. C. L.

Tokyo.—(By Mail)—Another institution to go down before the big cost of living Juggernaut is the public morning bath which has been the pride of Tokyo for centuries.

The institution of the public bath began during the Tokugawa regime, and became a sort of social club for workmen. The typical Yedokko, or inhabitant of Yeddo, prided himself on going to his morning bath and plunging into the boiling water, all the time feigning indifference to pain by humming a popular tune.

The Japanese bath used to offer the cheapest form of recreation, and all workers had their daily baths for a sen or two. The charge was raised to four sen about a year ago, on account of the high price of fuel, and, as the price of fuel has continued to soar, bath-house keepers recently proposed a further increase to five sen. This the metropolitan police refused to sanction, and the bath-house keepers retaliated by discontinuing the morning baths altogether.

### STORY OF A BARBER AND A LAUNDRYMAN

Dr. Dan Brummitt, one of the best and best known editors the Methodist Church has ever had, is just back from Europe with the following striking story:

We Americans make much of our chance at student self-support while getting an education. But there is a loss in it, as well as a gain. One day I was talking with an Englishman of the old school, who was easily astonished by what seemed commonplace to an American.

I happened to be telling him the amazing story of an American in middle life busy with Red Cross work in France, who was nominated for Governor of his State, and elected by a majority unmatched in the history of the commonwealth, while he was nearly five thousand miles away.

"You may be interested to know," said I, "that this man, now Governor of one of the great States of the Union, was once my barber!"

"Not really?" said he. "You surprise me."

"Yes," I answered, "and, what is more, when he was my barber I was his laundryman." When he had "recovered his composure" he remarked with evident feeling: "You Americans! I have always said you were the most extraordinary people in the world."

### THE PROMOTER'S WIFE

BY JANE PHELPS.

MRS. POWERS HAS DROPPED NEIL AND BARBARA FROM HER LIST.

CHAPTER LXXXI.

"What do you mean, that Mrs. Powers asked her husband to look Neil's business up?"

"Yes." Then: "That is, his business record."

"Why should she interest herself?" "Because she liked you, and was hesitating about asking you and Forbes to one of her select affairs. It sounds awfully harsh, but she told him after he had made his report that she should drop you from her list."

"I almost roared aloud. This was the woman whom I had hoped to have help me in my social aspirations; the woman whom I had planned to invite to my home in the hope she would give my parties eclat. Thank God I had a friend like Mr. Frederick. Mortifying as it was to have him know it was better than the embarrassment which would have been mine had I tried to put my plans into effect. Lorraine Morton had been careful not to hurt me too much. Perhaps Mrs. Powers had talked of us, Mr. Powers had warned her father, perhaps his wife had warned Lorraine."

"Please don't look like that," Mr. Frederick said after a moment. "I had to tell you—that was why I went to Powers after you told me of your intention to try to get into society. I wanted to save you, I have seen, even where I live, how it has hurt women when they tried to get into certain sets and failed. Why do you care about it?" He spoke fiercely, as if he resented the fact that I wanted to be somebody, instead of my failure, altho I knew he did not mean it that way. "What does society do for you women anyway? It makes slaves of you, dressing, entertaining, and going here, there and everywhere not because you care for it but because Mrs. Somebody else does it, and so it is the thing to do. I don't amount to much in the long run. I can't believe it would with you. You have your lovely home, your boy, your friends. Why not be contented?"

"If all you indicate is true I shall have no beautiful home, no friends." "Nonsense! Don't talk like that nor allow yourself to feel that way. Your true friends are still the same when you are in trouble that they are when you do not need them. As for your home, it is too early to think of losing that—it may come. I don't know of course to what extent Forbes is involved; or will be before he either calls a halt himself, or is compelled to. I hope he will do it himself. He is very stubborn, very impatient of not only reproof but of advice. I can appreciate how hard it is for him to give up such a source of wealth; but unless he goes straight he will have to. He can be a promoter and go straight. I have known many who did—but they never were very rich men. At times they would make considerable, at others scarcely a living. 500 per cent men are not honest men in any business. What a dry person you must think me. What a lecturer I would have made." He smiled whimsically at me, then: "Come, take a ride then meet me and your husband at Mordant's at lunch. I have an appointment with him. Perhaps it would be as well to say nothing of what we have discussed to him. I will say I dropped in and invited you to join us."

"Thank you, I will be glad to come," I said absent mindedly. I scarcely heard his good bye or felt his hand clasp so intent was I upon my thoughts. Not agreeable ones, as you can well imagine.

I dressed, simply, but carefully. I wore no jewels, not even a brooch. I would not give people occasion to talk of my extravagance. Just as I was about to start Lorraine came in.

"Drive down with me, then Thomas will take you home," I urged.

"That will be nice. So that Mr. Frederick is here again. I liked him immensely that night I met him at your dinner party. He rang true. Something a good many do not now-a-days." She bit her lip, and immediately commenced to chat of something else. It wasn't like Lorraine to make such a tactless remark.

Fats in the Body.

Fats in the body occur under the skin in the muscles and around certain organs. They act as a protection for the body against injury and serve as a stored supply of fuel, in case food cannot be taken. Fats are liquid in the body and are stored in albuminous cells.

### SMART BEACH CAPE HAS HAT TO MATCH

This costume will create quite a sensation when it is worn on the summer beaches this season. It is a walking costume which is quite French. Amber, yellow and white checked velvet is cut in voluminous folds and trimmed with a white velvet collar to make the cape and a huge tassel is the only trimming. A chic little hat to match completes the idea.

#### Free Board.

A restaurant in Yuma, Ariz., displays a sign that reads: "Free board every day the sun doesn't shine." At first sight the offer of free board every day the sun doesn't shine might seem a reckless one, but, as a matter of fact, a day without sunshine in that desert country is far rarer than blackberries in May. If it rains at all, it is only for a very short time, leaving most of the day for sunshine, so that the sign would only catch a tenderfoot.

### HAVE COLOR IN CHEEKS

Be Better Looking—Take Olive Tablets

If your skin is yellow—complexion pallid—tongue coated—appetite poor—you have a bad taste in your mouth—a lazy, no-good feeling—you should take Olive Tablets.

Dr. Edwards' Olive Tablets—a substitute for calomel—were prepared by Dr. Edwards after 17 years of study with his patients.

Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil. You will know them by their olive color.

To have a clear, pink skin, bright eyes, no pimples, a feeling of buoyancy like childhood days you must get at the cause.

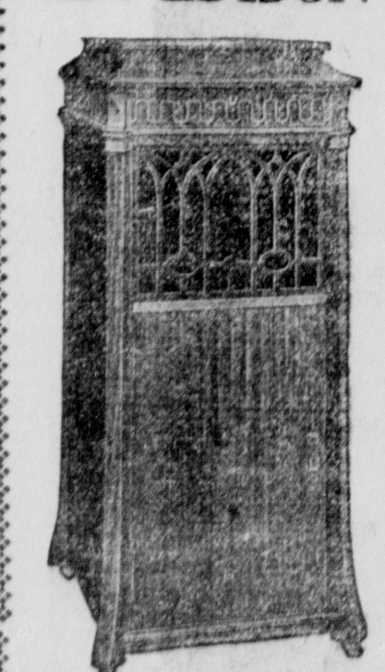

Dr. Edwards' Olive Tablets act on the liver and bowels like calomel—yet have no dangerous after effects.

They start the bile and overcome constipation. That's why millions of boxes are sold annually at 10c and 25c per box. All druggists. Take one or two nightly and note the pleasing results.

### GENTNER DAMAGE SUIT SETTLED FOR \$4,000

Mrs. Myrtle A. Gentner, widow of John W. Gentner, who was killed over a year ago when the motorcycle he was riding collided with an automobile belonging to the Dayton Metal Products Company, has been given permission by the probate court, as administrator of his estate, to settle her case against the company for \$4,000. Mrs. Gentner sued the Dayton Metal Products Company for damages in the sum of \$25,000.

In connection with the dismissal of the civil action which followed the settlement of the claim, the indictment for manslaughter against Clarence Black, driver of the automobile which killed Mr. Gentner, was nolleed upon application of Prosecuting Attorney Smith.

#### Taboo.

When anything is forbidden, or its exclusion has been ordered, English-speaking people sometimes say it is "taboo." The word is derived from an institution once common throughout Polynesia and New Zealand. It signifies something set apart or prohibited, because of its being either sacred or accursed. This has given rise to the use and significance of the word in English.

**SPRING VALLEY WOMAN PASSES AWAY RESULT OF A BROKEN HIP**

Mrs. Martha Oglesbee, wife of Calvin Oglesbee of Spring Valley, passed away at the McClellan Hospital Wednesday morning at 5:45 o'clock. She fell at her home in Spring Valley March 29, and suffered a fractured hip, from which she never recovered. She was at the hospital in this about a week.

Mrs. Oglesbee was the daughter of Mr. and Mrs. Morgan and was 73 years of age. She was born in Warren county and lived there until 11 years ago, when she moved to Spring Valley. She was married September 22, 1898 to William Oglesbee, who survives her. She also leaves two step children, Miss Alice Oglesbee at home and Dr. Oglesbee of Cleveland, and a half brother, Isaac Furnas of near Indianapolis.

Mrs. Oglesbee was a birthright member of the Friends' church and faithful in her church duties. Funeral arrangements have not yet been made.

**NERV-WORTH MORE THAN A MEDICINE: IT'S A MIRACLE**

So Declares Attorney C. W. Whitmer, After Giving This Famous Family Tonic the Acid Test.

This well known and highly esteemed citizen of Xenia, formerly for four terms Xenia's director of public service, recently gave Nerv-Worth the following extraordinary endorsement: "Was completely run down and terribly nervous. Couldn't sleep. Would toss and turn most of the night. Had gas on my stomach, and belched for quite some time after eating."

Have taken one bottle of Nerv-Worth and have been marvelously helped. Have not enjoyed sleep in six months as I do now. Have been prejudiced against medicines, but I am now of different opinion. Nerv-Worth is more than medicine. It is a miracle. I cannot recommend it too highly. I feel like a different man."

# GERMANS BELIEVE AUSTRIA WILL JOIN GERMANY IN TIME

(By United Press.)  
 Berlin.—(By Mail).—If Austria does not join Germany immediately, owing to opposition from the entente, she will do so later, according to German opinion, which considers it merely a matter of time until hostility for the union of all German peoples will pass. The Germans are making their plans accordingly, in spite of the recent eruption in Vienna against joining Germany.  
 During March, the Germans were for joining the two countries at once, and amendments were made for the step. There never was any opposition on the part of the Germans to the move, which would make the German speaking nation the largest in Western Europe. Two Austrian delegates were granted membership in the Reichstag, while preliminary work of connecting Austria to Germany went on.  
 Then came the Austrian revolution against joining Germany. Most of

the newspapers and the government expressed hostility to Austria under the Prussians. The opposition is merely a bluff, according to the Germans, and is inspired by agents of the French. The Austrians complied with the outside wishes to avoid further trouble, say the Germans.  
 But the Vienna opposition is not all bluff, in spite of the German theories. The Viennese never were over enthusiastic at entering the German federation, in which Austria would be a very small minority of the population, and contrary to her position as head of the Hapsburg empire, Vienna would be entirely dominated over, instead of being mistress city.  
 Not a small element of the movement to join Germany was based on the need of a route to the sea, Vienna has to turn to the North Sea, now she is cut off from the Adriatic. The Viennese are more southern in their dispositions and life than Prussians.  
 It is possible the Austrians see a way of reaching the sea through another alliance. But the Germans consider the movement a bluff to fool the entente and are confident of Austria's annexation through a clause in the constitution providing for new member states joining the German republic federation.

## GIRLS FAT ENOUGH

SAID THE JURY  
 (By United Press.)  
 Cardiff.—(By Mail).—A situation worthy of Gilbert and Sullivan's "Trial by Jury" developed here when a girls' class from the Howells Girls' School, Llandaff, filed past the jury box in order that judge and jury might judge as to their physical condition.  
 The case was one in which the father of a pupil sued the governors of the school for damages, alleging that his daughter was not properly fed. The inspection of a class satisfied the court that the majority of the girls seemed to be doing fairly well on the food supplied, and the jury decided against the indignant father.

## IN INDEPENDENT KANSAS.

McPherson, Kansas, May 7.—Here's the way Canton does it. Yes, it's left to the smallest of the small towns with 400 inhabitants and 156 voters, to establish a precedent in city elections. W. W. Musick, only avowed candidate for mayor, was defeated. Friends of J. J. Frick pencilled his name on enough ballots to give him a majority of 11 votes.

## SAGE TEA DANDY TO DARKEN HAIR

It's Grandmother's Recipe to Bring Back Color and Lustre to Hair.

You can turn gray, faded hair beautifully dark and lustrous almost overnight if you'll get a bottle of "Wyeth's Sage and Sulphur Compound" at any drug store. Millions of bottles of this old famous Sage Tea Recipe, improved by the addition of other ingredients, are sold annually, says a well-known druggist here, because it darkens the hair so naturally and evenly that no one can tell it has been applied.  
 Those whose hair is turning gray or becoming faded have a surprise awaiting them, because after one or two applications the gray hair vanishes and your locks become luxuriantly dark and beautiful.  
 This is the age of youth. Gray-haired, unattractive folks aren't wanted around, so get busy with Wyeth's Sage and Sulphur Compound to-night and you'll be delighted with your dark, handsome hair and your youthful appearance within a few days.  
 This preparation is a toilet requisite and is not intended for the cure, mitigation or prevention of disease.

## JAMESTOWN

Beautifully impressive, yet sad, were the funeral services held for Miss Ethel Christy. The Rev. Harley Moore, her former pastor at Bowersville, conducted the service, assisted by the Rev. W. A. Cooper, of the Jamestown M. E. church, where the funeral was held. Mr. Moore read for the scripture lesson the 35th chapter of Isaiah and based his remarks on the 10th verse: "And the ransomed of the Lord shall return and come to Zion with songs and everlasting joy upon their heads. They shall obtain joy and gladness and sorrow and sighing shall flee away." Mr. Cooper softly read the following hymns: "Saved," "Does Jesus Care," "Asleep in Jesus," Charles Reeder rendered most beautifully "Abide With Me." The casket was surrounded with fragrant spring blossoms, the gifts of friends and loved ones. Typical of the beautiful life of this young girl, who has gone to her reward long since earned by her abiding faith and untiring devotion to duty. The pall bearers were young lady friends of Miss Christy, Bernice Ross, Ossie Marshall, Elva Garringer, Mary Jenkins, Mabelle Walker, Eva Smith. Relatives from out of town were: Chester Ervin and family of Springfield, Mr. and Mrs. Ralph Christy of London, Mrs. Bessie Denman of Dayton, Mr. John S. Thomas of Wilmington, Mr. and Mrs. Joseph Wilson of Sabina. Also a large number of friends from Bowersville. Interment was made in the Jamestown cemetery.

Mrs. Bert Sanders has been called to Xenia on account of the illness of her mother, Mrs. Henry Briley. Mr. J. A. Cargill has been visiting his daughter, Mrs. Clyde Bingham and family of Dayton.  
 Mrs. Lou Hough is returning to her home in Columbus, after a two weeks visit in Jamestown, with her sister, Mrs. D. C. Shigley.  
 Roy Moorman of the Farmers' and Traders' bank and A. G. Carpenter spent Friday in Xenia.  
 Miss Florence Peddicord has returned to Dayton after spending some weeks with her sister, Mrs. Ernest Elliott.  
 Miss Louella Garanger has gone to Blanchester, to visit with relatives.  
 Miss Violet Ritenour has been the guest of school friends at Dennison for the past week.  
 Mr. and Mrs. Ray Cushman were week-end visitors in Dayton.  
 To comply with many requests, the Juniors of the Jamestown high school will give their play "The Camouflage of Shirley" again on Thursday evening the 8th.

Mrs. W. S. Galvin has been visiting with her cousins, Mr. and Mrs. Geo. McClain in Xenia.  
 At a recent meeting of the Board of Education, Supt. Chester A. Devoe, was re-elected as district superintendent and as a recommendation Mr. Devoe has filled this position for four years. The district comprises the Jamestown schools. Those of Silvercreek township of Caesarcreek, New Jasper and the centralized schools of Jefferson township.  
 Mrs. Alpheus Skyles and daughter Louise spent the week end in Dayton visiting at the home of Mr. and Mrs. Orville Wilkinson. Mr. Skyles going over on Sunday. They spent the day at the Miami hospital with their son Ray, who has been there for the past ten weeks on account of having a leg broken, when he was thrown out of an automobile near Dayton. He will be there for several weeks yet. His case has been a serious one.

## CAMOUFLAGED SHEEPSKINS TO BE USED THIS YEAR

(By United Press.)  
 Kansas City, Mo., May 7.—When Missouri University graduates receive their sheepskins at this year's commencement, they will not be sheepskins at all. So charge one more item against Bill Hohenzollern. Missouri will not be alone in the passing out of "bosus sheeps." All graduation certificates are being issued on plain paper, as Europe—which furnishes diploma material—has not yet been able to replenish the exhausted supply of parchment paper.

Take time to scrutinize your life. Try to define just why you are "run" and decide for yourself that if you are going to be ruled, as most of us are, it must be by something or somebody well worth the arduous sprinting we are all indulging in. ## VACATION THRIFT COMMITTEES ARE FORMED IN GREENE CO.

Columbus, Ohio, May 6.—Vacation Thrift committees through which Ohio school pupils are to continue the sale of War Savings Stamps through out the summer are being rapidly formed in Greene county. Thousands have been organized throughout Ohio but it is the aim of the Ohio War Savings Committee to have at least one for every school building. Principles and teachers of Greene county who have not yet organized Vacation Thrift Committees, are urged to do so at once by the Educational Division of the War Savings Committee here and to report to that committee.  
 The War Savings Committee points out the urgency of formation of Vacation Thrift committees, now that school pupils may get an early start in the Vacation Thrift contest in which \$8,000 in prizes are to be awarded to the 25 Ohio boys and girls selling the most War Savings Stamps this summer. Credit for all sales also will be given in the Hun helmet contest, the Presidential Honor Stamp series and the War Savings Honor flag contest.  
 The following teachers have formed Vacation Thrift committees in Greene county, C. L. Barkman, O. A. Sink, Henry Garlaugh, Mr. B. N. Shoup, Hazel Hawker, Ethel Turner, Clifford Hagler, Mrs. Benj. Faris, Mrs. C. K. Wolf, Mrs. Harry Haverstick.

## AUTHORITIES AFTER WILBERFORCE BOYS WHO STOLE AUTO

John Henderson, Lyman Stone and Clarence Pettis, three of the lads involved in the joy ride in J. C. Hunter's automobile, returned to Wilberforce Wednesday forenoon, and their appearance was reported to Sheriff Funderburg by President Scarborough. The lads were brought to the sheriff's office where they met Mr. Hunter, owner of the automobile which they appropriated and an effort will be made to adjust the case. Edgar Hayes is the only one of the quintet not yet accounted for.

Although they fled from school in order to avoid arrest, five Wilberforce University students who took an automobile belonging to J. C. Hunter of Bath township on a joy riding expedition and wrecked the machine last Saturday night, will probably find themselves in custody before another day.

One of the lads, Herbert Starks, was arrested by Columbus police for Sheriff Funderburg, Tuesday night, and Deputy Sheriff George A. Birch made a trip to the capital to take charge of the lad, Wednesday morning.

On the supposition that all the boys had gone to their homes, Sheriff Funderburg wired to authorities in the respective cities in which the boys live, asking that they be arrested upon their arrival. The other boys involved are: John Henderson, Cincinnati; Edgar Hayes, Lexington, Ky.; Clarence Pettis, of Clairton, Penn., and Lyman Stone of Chicago.  
 Upon learning that the automobile had been stolen, sons of Mr. Hunter got on the trail of the joyriders, and traced them to the point where they had ditched the machine. The authorities were not notified, and the charge was not filed until Tuesday, when Mr. Hunter swore out an affidavit against them before Police Judge E. D. Smith.

## TWENTY YEARS AGO

The injunction suit against the Dayton and Eastern Traction Co., to prevent its occupancy of West Main street, was resumed this morning in common pleas court.

A rather mysterious noise was heard on West Third street the other night about 9 o'clock, and the neighbors of Dr. Reynolds had about concluded that the Doctor was taking the 32nd degree. Investigation showed he was just trying to soothe a bouncing baby boy that had just arrived at his house.

Mr. Chas. Munger, who is now located in Indianapolis, in the employment of a large shoe company, is spending a day or two at home.

## Great Alexanders.

Alexander Bell was the great American who invented the telephone, which is still called the Bell telephone; and Alexander Humboldt was a German traveler, statesman and the most distinguished naturalist of all times. One of his most important discoveries was the decrease in intensity of the earth's magnetic force from the pole to the equator. His most important book, "Kosmos," was written in his seventy-fifth year. He did much in his long life to further the science of the world.

## BUILD NOW

(Baltimore American)

The hesitant attitude in building industrialism has been general and not local as to any city in the United States. But in many cities, according to reports that are appearing in print, the build-now urge has grown so insistent that the waiting attitude is vanishing. A committee of five appointed by the Cincinnati Building Exchange recently investigated conditions pertinent to both the labor cost and the cost of materials in the building industry, and the report of this committee has been made the basis of an urge "by the Cincinnati Mayor that 'the time to build is now.'"

The Building Exchange Committee reached the conclusion that there is no near prospect of a decline in either the labor cost or the cost of materials. The committee urges that building enterprises should go ahead without further delays. The Department of Labor at Washington has been sending out the same urge—"go ahead," "do it now." The Cincinnati committee canvassed conditions not only locally but in several Central West cities, including Chicago, Cleveland, Dayton, Indianapolis, Columbus Louisville and Pittsburgh and found the situation much alike everywhere.

The feeling everywhere in building circles seems to be optimistic in a look-ahead way. There are big things in the prospect—the rush time is surely coming—but the urge to "go to it" to "start things" seems to be necessary, generally.

## Early American Statesman.

Alexander Hamilton, one of our greatest statesmen, was sometimes called "Alexander the Coppersmith," because of the copper cents he had made in 1793, when he was secretary of the treasury. These pennies were very unpopular with the people. He was killed in a duel by Aaron Burr.

## ENJOINED FROM DIGGING UP YARD

A temporary injunction, preventing the defendants digging up the rear yard at his home, Main and Galloway streets, for the purpose of planting a garden, was obtained last night by Clerk of the Courts George W. Sheets, against Mr. and Mrs. Alfred Warner. Mr. Sheets sets forth in his petition which was filed by Attorney J. K. Williamson, that R6 has leased the house in which he lives, and the yard, from D. W. Cosley, and that Mr. Cosley rents the two rear rooms of the house to the defendants who insisted upon digging up the yard against the protests of Mr. Sheets, who says that the yard is needed for his children to play in, and for the use of his own family.

## High School Notes

Photographs of the different classes and rooms are posted on the bulletin board this week.

The Seniors will present their class play at the opera house May 8 and 9. "It Pays to Advertise" is an up-to-date, three act play written by Roi Coper Megrue and Walter Hackett. Cyrus Martin (Heber Tullis) the soap king, has vainly tried to get his son Rodney (Earl Hartsock) to go to work. He enlists the help of his secretary Miss Grayson (Emma Dymond) who induces Rodney to go to work. With Ambrose Peale (Paul Satterfield) as advertising agent he forms a rival soap company. The French agency is given to the Countess (Hazel Evans) and an extensive campaign for advertising "13" Soap is planned. Various complications arise; the firm is broke, bills come in, and there is no money to pay. The Countess proves a fake. No soap orders are received until a telegram fifty thousand cakes of lucky "13" soap. The soap becomes the most popular on the market because of the trade mark. Cyrus Martin is convinced that "It Pays to Advertise" also of his sons business ability and competes with others for the trade mark. The deal is finally closed by Miss Grayson. Rodney enters with Peale and makes a most astonishing

announcement. Can you guess what it is?

Doors will open promptly at 7:15 both nights. No one will be seated while first act is going on, so please come early. The curtain will go up promptly at 8 p. m. Balcony tickets will be on sale at the box office preceding the show both nights.

## THEATERS

### OPERA HOUSE.

With a clever and original comedy-drama, the Shannon Stock Company closed its local engagement at the opera house, Tuesday night, presenting "The Prodigal Daughter" to a crowded house.

H. C. "Red" Soubeir, popular with local theater goers, had a role well adapted to his talents, and he furnished laughter for the entire skit. Mand Rinaldo gave an excellent interpretation of a heavy character role, which was unusually good, and Miss Hazel Shannon and Guy Astor were again popular as usual. The company goes from here to Wapakoneta, the home of the Shannons, for a one-night stand, and then after ten days' vacation starts out on the road with a tent performance.

### BIJOU.

William Farnum has his usual strong and virile role in the part of George Arnold, lead in "The Man Hunter," a William Fox production of much note, which appears at the Bijou theater Thursday.

It is the first time in a long while that Farnum has appeared on a local screen and he will be welcomed back with interest in his new role. The part is well adapted to him and he presents the same strong character acting that is significant of his many screen appearances. He is supported in the new Fox release by Louise Lovely, Charles Clay, Marc Robbins and Leatrice Joy.

### ORPHUM.

An unusually good and charming cast presents "The Bluffer" an original and interesting story by World Film at the Orphum Theater Thursday night.

In the leads are June Elvidge, and Irving Cummings and the balance of the cast includes Frank Mayo, George MacQuarrie, Muriel Ostriche, Elizabeth Garrison, Louis Grisel, Jack Davidson and Jack Raymond.

### Beans.

The common bean is a native of South America and was introduced into Europe during the sixteenth century. Now it is represented by over 150 varieties. The big broad bean is probably a native of southwest Asia and northeastern Europe. The broad, but not thick, lime bean, called by some "butter bean," is a pole variety that comes from South America.

## RED CROSS OFFICIAL OF LAKE DIVISION SPEAKS IN XENIA

John Martin Tellen, representative of the manager's office of the Lake Division, American Red Cross, gave a very interesting talk to the officers and others interested in Red Cross work, Tuesday evening, in the assembly room of the Business Men's Association.

The excellent work of this organization during the war and the importance of continuing such good work in the future was clearly brought out by the speaker.

A great many people have the impression that since the war is over, there is no further necessity in carrying on the work, which was conducted by the Red Cross during the war. The fact was clearly emphasized that there is every reason for continuing, not only so that these men and women who have in some way or other been incapacitated or have suffered as a result of the war, may be properly cared for, but so that in the case of any calamity that may befall this country, there may be an efficient and effective organization prepared and in readiness to immediately render relief.

The work of the Red Cross will not only apply to this country, but to all countries, for the Red Cross is an international organization. Right at this time it is conducting the most humane and needful help to all nations and were it not for the Red Cross thousands of people would now be perishing from lack of care and assistance.

The point that was clearly emphasized was that as a result of such work as the Red Cross is now doing and which it will do in the future there will be a very much closer and more friendly relation exist between all countries of the world than would otherwise exist.

The Red Cross organization serves all classes of people and is the one league standing for the better welfare of all humanity. Even though it is a large organization, by the work of local chapters its effect can easily be felt and its benefits can be realized in any community, no matter how small. This was demonstrated locally when as soon as the fire at Bellbrook was reported here an officer of the Red Cross immediately got busy and called to see if any relief was needed. Had there been need for such relief it would have only taken a short time to have had nurses, doctors and any essential relief at their disposal.

The speaker said that the Red Cross needs Greene County and Greene county needs the Red Cross and to bring out the argument he cited a number of incidents which had come to his attention during only the few hours that he had been in this county.

One being a soldier in Yellow Springs who was going around with one arm in a sling and selling small posters or cards at 25 cents each. It can be imagined, of course, the effect that this made and during a short time this crippled soldier, as it appeared he was, had collected a considerable amount of money. After investigation it turned out that the "soldier" was not a soldier and that he was purchasing the cards at 3 cents each and selling them for 25 cents.

Among a number of clippings that Mr. Tellen had taken from newspapers over the country it is seen that cities are being overrun with fakirs, some such peddlers are released soldiers and some are "just peddlers" wearing army uniforms. An active chapter of the Red Cross in every community will stop such fraudulent business, thereby protecting and preserving the good name of the soldiers as well as saving the people from being skinned.

The Red Cross is the one organization that has above all others gained for itself a good name during the war and as trouble and suffering has by no means ended with all peoples just because of the termination of a world war, it should be continued with all force and vigor. It is to be continued and if we here are to receive the most from it, we must have an active local organization.

Had there been as large an organization as now exists, during the past, there probably never would have been a world war such as we have just passed through.

It is expected that out of this world gathering, the International Red Cross, there will emerge an international organization through which the peoples of the world may co-operate in stimulating and developing activities in respective countries for the betterment of mankind. Such activities will foster the study of human disease, promote sound measures for public health and sanitation, the welfare of children and mothers, the education and training of nurses and the care and prevention of tuberculosis, venereal diseases, malaria and other chronic or infectious diseases, and will provide measures for banding problems of world relief in emergencies such as fire, flood, famine and pestilence.

## LIFE LONG RESIDENT OF BELLBROOK DEAD

John F. Hopkins, life-long resident of Bellbrook, and aged Civil War veteran, passed away at the Dayton Soldiers' Home Sunday night at 9:30. Death was due to the infirmities of old age. He had been taken to the home just two weeks ago.

Mr. Hopkins was born in Bellbrook of Jan. 11, 1842, and was thus 77 years of age at the time of his death. At the start of the Civil War he enlisted and served as a member of Co. F, 34th

O. V. I during three years of the conflict. After the war he was a member of Gard Post, G. A. R. at Spring Valley until that post was broken up.

Mr. Hopkins was married to Addie Haney, who died in 1884. He is survived by two sons, R. H. Hopkins, of Bellbrook, with whom he made his home until two weeks ago, and Harry Hopkins, of near Bowersville. He also leaves two brothers, Frank, of Waco, Texas, and S. T., of Bellefontaine, and three sisters, Mrs. Clara F. Murrell, of Dayton, Mrs. Kate Willoughby, of West Milton, and Mrs. Josephine Deering, of Dayton.

Funeral services will be held Thursday afternoon at two o'clock at the

home of his son, R. H. Hopkins, in Bellbrook, and burial will be made in the Bellbrook cemetery.

### Deeds and Words.

Deeds are greater than words. Deeds have such a life, mute but undeniable, and grow as living trees and fruit trees do; they people the vacuity of time and make it green and worthy. Why should the oak prove logically that it ought to grow, and will grow? Plant it, try it; want gifts of diligent judicious assimilation and secretion it has, of progress and resistance, of force to grow, will then declare themselves.—Carlyle.

# Music Lovers Amazed at EDISON'S DARING TEST

Over 1000 MUSIC LOVERS went to Trinity Church Monday afternoon and night filled with curiosity regarding the performance they were about to witness. They came away amazed at the almost unbelievable demonstration which had taken place before their very eyes—the most daring test of a phonograph or talking machine ever made.

They saw Marie Tiffany, noted concert contralto, stand beside

## The NEW EDISON "The Phonograph With a Soul"

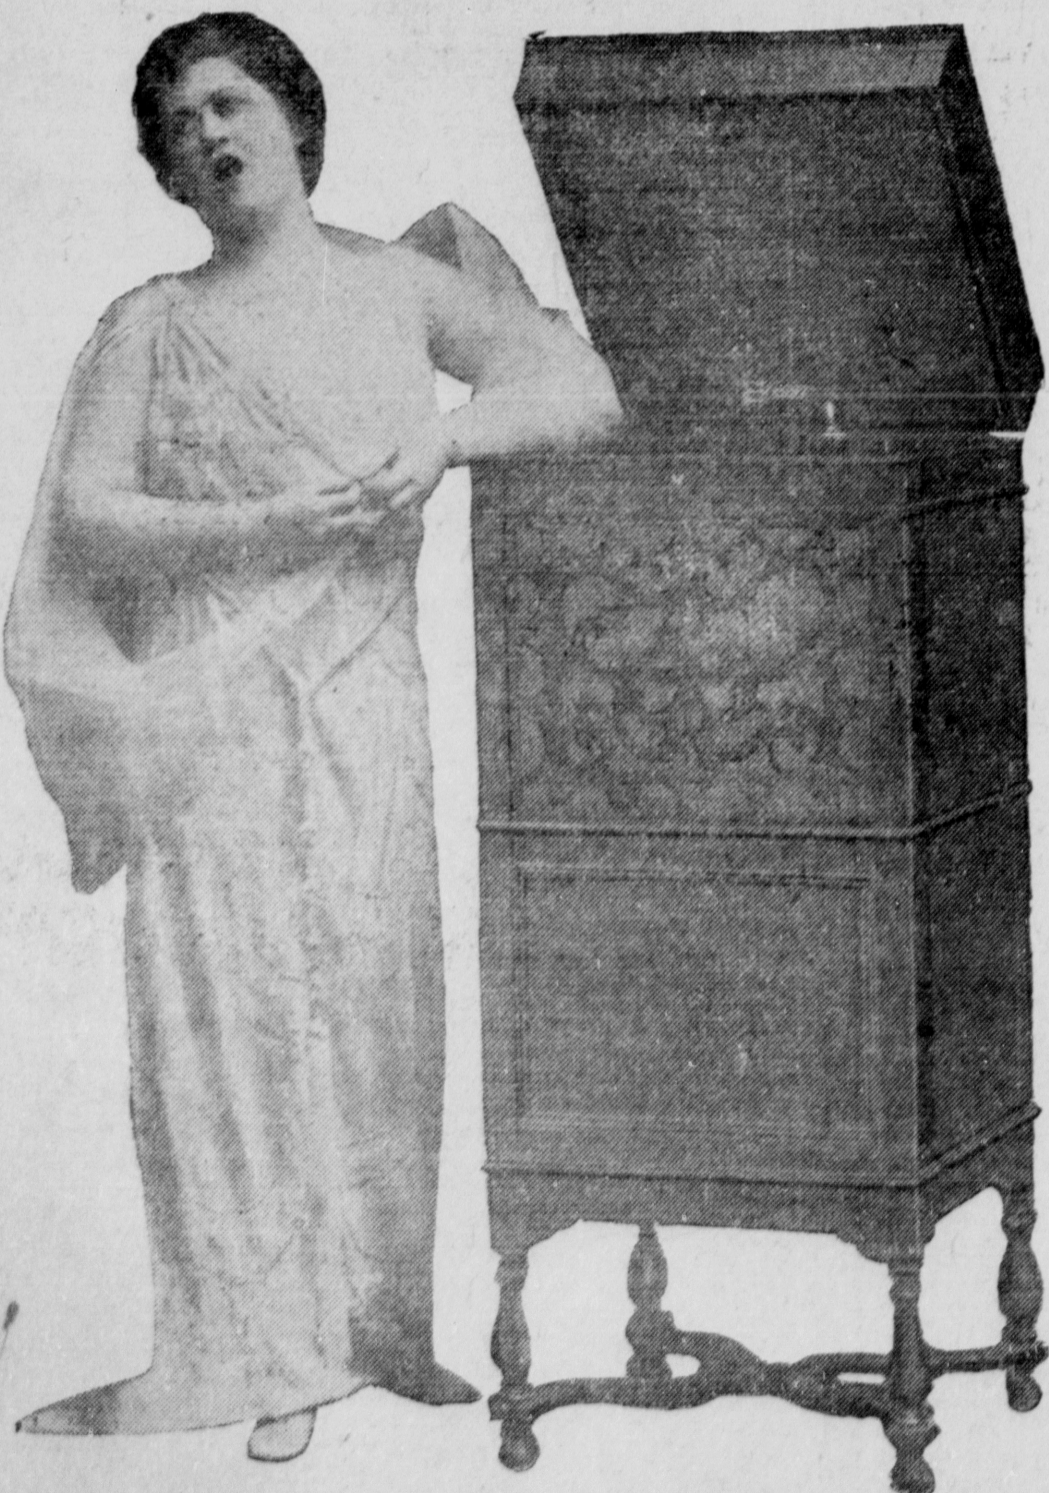

They heard the instrument re-create the introduction to a song. Then Miss Tiffany herself began to sing the air. Suddenly and without warning she ceased singing, leaving the instrument to continue the air alone. 1000 pairs of ears strove in vain to distinguish the faintest shade of difference between the actual voice and the RE-CREATION. Only by watching the artist's lips did the audience know that she had ceased singing and that they heard only the instrument. By the same test Jacques Glockner, violinist, demonstrated that Mr. Edison's RE-CREATIVE ability is not confined to the RE-CREATION of the voice, but that it covers music in every form.

This is the famous Edison Tone Test. ONLY EDISON MAKES THIS TEST. Only Edison CAN make this test, because the New Edison is the only instrument that actually RE-CREATES the human voice and the music of human-played instruments with every tone quality and every shade of expression. Other phonographs, and talking machines, merely reproduce.

If you were not fortunate enough to witness the Edison Tone Test at Trinity Church, Monday, visit our store and hear the only instrument that RE-CREATES music. Make the time to suit your convenience.
